

Third Party Tools

In no specific order and not a full list, this we have only added to a bit here and there when we have had time.

COLLADA

All 3D models regardless of program used must be able to export to the [Collada](#) format.

3D Programs

Blender

[Blender](#) - Open-source 3D modeling program that comes with built-in support for [Collada](#).

2D programs

Audio programs

Text/Script coding programs

1. [Notepad++](#) - Advanced text editor, crucial for script writing.
2. [Geany](#) An alternative for Notepad++.
