

# Resources

This section contains a set of community created resources for aiding in development of maps. These range from a collection of script modules, to upgraded / new tools for developing content.

Many additional tools and resources can be found in the [Development Resources section of the forum](#).

## Tools

- [Improved notepad++ HPS support](#)
- [Language editor tool](#)
- [Script Preprocessor](#)

## Script Modules

- See [here](#)
