

Dev Features

Keyboard shortcuts

F1 - Debug Menu

If the settings file have DebugMenu set to true, then the debug menu can be accessed. Here lots of nice stuff can be found. In order for most of the other shortcuts here to work, DebugMenu must be set to true.

F2- Pause

This pauses and unpauses the game.

F3- Fast forward

This games the game run for times faster. Good for skipping sections.

F4- Slow Down

Slows down the game to 1/4 of the speed.

F5 - Reload

This reloads the current map.

F7 - Spectator Mode

Changes to spectator mode, which allows you to fly freely. Constrols are. WASD, Shift, Space and Ctrl.

F8 - ScreenShot

This takes a screen shot and puts it in the same folder as the exe file. You can change ScreenShotExt in the settings file to change the format.

F9 - Quick Save

Saves a save-game.

F10 - Quick Load

Loads a save game.

Insert - Quick Record

Starts a input recording with the name QuickRecord.sav/input. Press again to stop recording

Home - Quick Playback

Start playing back the last opened or recorded input file. Will open QuickRecord.sav/input as default
